

ARISTON

AQUA ARISTON NET COMFORT ON YOUR SMARTPHONE

Aqua Ariston Net, the first-in-the-market remote control APP for water heating. Total control whenever and wherever you are, comfort and energy saving at your fingertips.

SLIM2 LUX

SLIM2 RS

TITANSHIELD TECHNOLOGY EVERY DAY LIKE THE FIRST DAY

Ariston has been always committed to develop products that last through time. Twenty-five years ago, it was the first electric water heater manufacturer to use titanium against water corrosion. Today the new exclusive TitanShield technology, and the PATENTED full-titanium heating element are simply the best solutions in the market. For this reason, Ariston provides this unique component with a LIFETIME WARRANTY.

HOT WATER | RENEWABLE

ARISTON
COMFORT ALWAYS ON

ELEGANT AND SMART USE OF SPACE

SLIM2 RANGE
ELECTRIC STORAGE WATER HEATERS

MAXIMUM COMFORT ALWAYS UNDER CONTROL

All the Slim2 models offer a superior temperature control for the best comfort. Electronic model LUX uses a brand-new powerful chip to constantly measure the water temperature and all the product parameters.

GREAT FEATURES FOR TOP PERFORMANCES

ECO EVO FUNCTION THE SMART WATER HEATER WITH 14% SAVING

ECO EVO is the most innovative energy saving algorithm (powered by CoreTECH thermostat) used worldwide by Ariston to reach the top energy ratings. That's why the Slim2 range is best in class on heat preservation, allowing you to conveniently save up to 14% of your energy bills*.

*Estimated savings vs traditional electrical water heater based on the average net demand of hot water (2007 VHK Ecodesign WH study). Savings depending on product's capacity.

AQUA ARISTON NET SMARTLY CONNECTED TO YOU

Aqua Ariston Net App* connects you with Slim2 wherever you are. Enjoy an absolute **peace of mind together with savings up to 25%****. Hot water is now always available, whenever you want it.
